

Geary County

Estimated Economic Impact of Agriculture, Food, and Food Processing Sectors 10/3/14

11 agriculture, food, and food processing sectors were analyzed to determine their overall contribution to the Geary County economy.¹

These 11 sectors have a total direct output of approximately \$183 million and support 731.2 jobs in Geary County. Running the model for all 11 sectors simultaneously produces the following results:

Agriculture Contribution in Geary Co									
Impact Type ²	Employment	% Employment	Total Value Added ³	% of Gross Regional Product ⁴	Output ⁵	% of Gross Regional Product			
Direct Effect	731.2	2%	23,117,714.1	0%	183,164,264.9	3%			
Indirect Effect	63.4	0%	6,126,773.2	0%	9,834,601.3	0%			
Induced Effect	48.6	0%	3,691,104.8	0%	5,602,107.5	0%			
Total Effect	843.2	2%	32,935,592.0	1%	198,600,973.7	4%			

As shown in the above table, agriculture, food, and food processing supports 843.2 jobs, or 2% of the entire workforce in the county. These industries provide a total economic contribution of approximately \$199 million, roughly 4% of Gross Region Product (GRP). As noted below in the calculation of Gross Regional Product, imports and institutional sales are subtracted. Therefore, counties that import a relatively large amount of goods and services will have a reduced GRP which may lead to agricultural output being greater than GRP.

Another metric used to calculate the importance of sectors in an economy is their value added as a percentage of GRP. Total value added by the 11 agriculture, food, and food processing sectors is approximately \$33 million, or 1% of the GRP. This indicates that personal income, business income, and taxes generated by these sectors account for 1% of the total economy.

¹ Article on building a contribution analysis in IMPLAN that avoids double counting: http://www.implan.com/index.php?option=com content&view=article&id=660%3A660&catid=253%3AKB33&Itemid=70

² Direct, indirect, and induced effects sum together to estimate the total economic contribution in the state. **Direct effects** capture the contribution from agricultural and food products. **Indirect effects** capture the economic benefit from farms and agricultural businesses purchasing inputs from supporting industries within the state. **Induced effects** capture the benefits created when employees of farms, agricultural businesses, and the supporting industries spend their wages on goods and services within the state.

³ Value added = labor income + indirect business taxes + other property type income.

⁴ GRP = final demand of households + governments expenditures + capital + exports - imports - institutional sales.

⁵ Output = intermediate inputs + value added.

The following tables document the overall summary numbers of the model, top industries affected by employment and output, and a listing of all industries that were analyzed.

In the top ten by employment, Animal (except poultry) slaughtering, rendering, and processing is the top employer in the agriculture industry with 448.0 employees. This table also shows the amount of jobs that are created by the agriculture industry in Geary County.

Description	Total Employment	Total Output
Animal (except poultry) slaughtering, rendering, and processing	448.0	143,550,494.1
Grain farming	111.1	9,482,876.0
Animal production, except cattle and poultry and eggs	66.3	4,929,577.4
Cattle ranching and farming	48.9	11,251,712.3
Oilseed farming	25.0	5,980,177.0
Food services and drinking places	15.9	873,535.8
Dairy cattle and milk production	12.0	3,555,128.7
Real estate establishments	11.0	1,853,299.2
Monetary authorities and depository credit intermediation activities	10.2	3,364,452.8
Support activities for agriculture and forestry	8.3	52,463.1

The Animal (except poultry) slaughtering, rendering, and processing industry directly contributes approximately \$144 million to Geary County's economy. This table also shows how much revenue is generated in other industries by having a strong agriculture industry.

Description	Total Employment	Total Output
Animal (except poultry) slaughtering, rendering, and processing	448.0	143,550,494.1
Cattle ranching and farming	48.9	11,251,712.3
Grain farming	111.1	9,482,876.0
Oilseed farming	25.0	5,980,177.0
Animal production, except cattle and poultry and eggs	66.3	4,929,577.4
Dairy cattle and milk production	12.0	3,555,128.7
Monetary authorities and depository credit intermediation activities	10.2	3,364,452.8
All other crop farming	5.8	3,097,349.6
Real estate establishments	11.0	1,853,299.2
Imputed rental activity for owner-occupied dwellings	0.0	1,541,508.6

Below is a summary of all agriculture data with employment levels and output level. These values can tell how many jobs are represented by each agriculture sector and the output they contributed to Geary County's economy.

Oilseed farming 25.30 5.899,590.97 Grain farming 111.08 9,355,106.35 Tree nut farming 0.13 49,684.84 Greenhouse, nursery, and floriculture production 0.27 181,529.83 All other crop farming 5.78 3.056,060.08 Cattle ranching and farming 48.93 11,101,432.80 Dairy cattle and milk production 11.95 3,507,121.09 Animal production, except cattle and poultry and eggs 66.26 4,863,389.97 Support activities for agriculture and forestry 8.27 50,341.62 Animal (except poultry) slaughtering, rendering, and processing 44.796 140,361,312.87 Bread and bakery product manufacturing 5.57 997,313.50	Description	Employment	Output

All 105 counties in Kansas have Implan models and agriculture contribution summary. These values do not factor in the retail environment of food sales. Food retail is important, but in order to provide the most accurate picture of what production agricultural and processing contributes to Kansas, the retail sector was omitted.
